

Public Health Inspector Referral Form

This referral form is to be used by regional public health to report exposures identified during a reportable communicable disease case investigation, that may have occurred in a public venue(s) or during a public or semi-public event. Public Health Inspectors (PHIs) once notified, may investigate further to inspect for any potential risk to others. Refer to PHI Referral SOP for further guidance.

Fax completed form to: Manitoba Health, Health Protection Unit: 204-948-3727

- For enteric diseases, **please also fax a copy of the food recall questionnaire** (if applicable). Ensure the client is advised that a PHI will be notified due to the potential exposure in a public/semi-public venue or event and may contact the client if further information is required.
- A copy of this referral is also to be uploaded into the case investigation in PHIMS as a context document.

Date of Referral: <small>yyyy/mm/dd</small>
